

Locarla is an online platform of business intelligence information & data, built for companies with products and services to sell to Housing Associations & Local Authorities.

We supply data to many of the biggest names working in the Social Housing sector. They value the breadth of information we provide and appreciate the attention to detail.

Clients use us for marketing, bid research, pipeline research, benchmarking and sector analysis.

Locarla.com is intuitive, easy to use and all our data can be exported for analysis in ChatGPT or Gemini. To set up a 30 minute demo get in touch with us at helpdesk@locarla.com

There are 160 fields of data on the Social Housing licence (290 on RMI Insight), you can use to populate the Housing table. Build tables by dragging and dropping data interest into the left-hand column. Move the fields up and down to change the order they appear on your table.

The screenshot displays the 'Build Housing Table (3,038)' interface. On the left, a 'Default View (20/43)' panel shows a list of fields for selection. The 'TSM' category is expanded, and 'TSM: Overall Service Satisfaction (2024) (%)' is being dragged into the 'Building Name' field in the table. The right panel shows a table with columns: RELATIONSHIP, TYPE, BUILDING NAME, and ADDRESS LINE 1. The table contains 15 rows of data.

| RELATIONSHIP | TYPE | BUILDING NAME | ADDRESS LINE 1 |
